The Mid-America Regional Council updated the Regional Multi-Hazard Mitigation Plan in 2010 to assist cities and counties on the Missouri side of the metro area identify possible measures to reduce risks from possible disaster events. The plan's development and adoption allowed local communities to be eligible for certain FEMA grants. FEMA requires that the plan be updated every five years.

This Mitigation Strategy survey tool is intended to aid in the hazard mitigation plan update process by collecting information from communities about its mitigation goals and actions. Completion of this survey is required to be eligible to adopt the updated Regional Multi-Hazard Mitigation Plan for 2015.

***Attention 2010 Plan Adopting Communities:***

**Please note that your Mitigation Strategy survey is in two parts. The first part is an online survey tool designed to capture progress on your 2010 Plan Mitigation Goals and Actions. The second part is this Excel survey tool designed to capture mitigation goals and actions for your**

**Please return completed survey by February 5, 2015. For more information, contact Donna Martin at [dmartin@marc.org](mailto:dmartin@marc.org) or 816-701-8369.**

*I acknowledge that submission of this completed survey satisfies part of my jurisdiction's participation requirements for the 2015 Regional Multi-Hazard Mitigation Plan.*
